Town Hall--Practicalities of Implementing Collaborative/Therapeutic Assessment (C/TA)

10:30am-12:00pm CST

Pamela Schaber, PhD & Raja M. David, PsyD, ABPP, LP

Sponsored by the Therapeutic Assessment Institute (TAI)

This 90 minute town hall is designed for clinicians who are looking to implement C/TAs in their work setting and those who have successfully done so. The goal is to bring together professionals who can share their experiences with issues such as billing, scheduling, and documentation. We hope to organize a dialogue and answer questions to learn from each other. This town hall is free and no CEs are connected to it. We hope you come and share your questions, experiences, or join us and just listen.
