Beyond the Wall of Reason: A Journey Through Attachment, Emotion, & Healing with the Early Memories Procedure

November 13, 2026 • 10:00 AM – 2:00 PM

Where: Online Event

The Early Memories Procedure (EMP) offers clinicians a powerful, narrative-based approach to understanding clients' attachment defenses, unspoken conflicts, and adaptations in psychotherapy and psychological assessment. This advanced workshop will demonstrate how the EMP can illuminate deactivating defenses that protect clients from emotional pain while limiting emotional access, self-understanding, and growth. Gr...

Using Therapeutic Assessment to Help Clients Heal Unresolved Trauma

January 21, 2027 • 10:00 AM – 12:00 PM

Webinar description: For years it has been known that psychological assessment procedures may elicit unresolved traumas from clients suffering from many different problems in living. However, little has been written about how to safely manage this aspect of psychological assessment and use it to help clients heal. In this webinar, Dr. Finn will explain how Therapeutic Assessment maximizes the therapeutic potential...
